DRUG AWARENESS PROGRAM

UPDATED – POWER POINT POSTED

>> GO TO DOWNLOAD PAGE <<

These times are challenging and will be for several months. It affects all parts of our life and requires I approach our Drug Awareness Program differently than this year's plan I was ready to release. **THIS POWERPOINT IS AVAILABLE IN THE DOWNLOAD SECTION.**

While some feel this a short-term issue, I feel that I need to view it as a longer-term setback and plan accordingly. Therefore, I have posted a PowerPoint Program to cover the period from April 1 till October 1. This will focus on activities that are home based. After the restrictions have passed, we can move back to our regular programs. Here is the 2-stage program.

➤ **TRAINING POWER POINT (STAGE 1)**

This will allow all to get up to speed on our programs and resources. View this Power Point as a GUIDE to our programs, also use elks.org/dap and the DEA sites for support information.

➤ **PROGRAMS THAT ARE POSSIBLE NOW (STAGE 2)**

These are the programs that may be possible to carry out under current limitations or that you can plan during this shutdown.

If you have any questions email me at kydap@yahoo.com
